

Pay-for calls and pay-for text messages

Proximus doesn't set the price of pay-for text messages and pay-for numbers (0900, voting, short numbers, etc.) but by the service provider that manages the number.

A. Maximum price of pay-for text messages

Note that with some SMS services you pay both for SMS messages sent and for SMS messages received. The service provider is legally required to mention the rates in advance. SMS messages to 8xxx numbers are always free of charge.
